CERTIFIED MAIL

July 14, 2010

Aloha, Director Lee,

At the July 13, 2010 meeting of the South Kohala Traffic Safety Committee (SKTSC) a motion was approved to request information on the following projects. Many times this committee has requested this information verbally and by emails, only to have the requests ignored or rejected by Department of Public Works.

South Kohala Traffic Safety Committee formally requests the following documents under HRS Chapter 92 & 92F Uniform Information Practices Act;

1. Breakdown of the \$10 Million Bond to Relieve Traffic Congestion through Waimea. Specifically the cost to date of the Waimea Traffic Circulation Study by Parson's Brinkerhoff; The Lalamilo Connector Road EA study by Belt Collins; and any and all other contracts, agreements and studies financed by the Bond (Full disclosure). Also provide the plan for the remaining balance.
2. The Lalamilo Connector Road EA study by Belt Collins document delivered to Hawaii County Administration many months ago and never released to the public after multiple requests throughout 2009 and 2010 to present date. This request includes the subsequent Lalamilo Connector Road EA "Buffer" study by Belt Collins document delivered to the County Administration in October 2009 according to Belt Collins.

SKTSC is an unfunded public forum in existence since territorial days serving the community by encouraging traffic safety for the public good. We specifically request waiver of any document search effort costs due to SKTSC providing for the public good and the information requested being public information.

Mahalo for your action providing this information within the allotted ten days from receipt of this request.

Sincerely,

Mike Price-Chair South Kohala Traffic Safety Committee

CC: SKTSC
Mayor William Kenoi
Councilman Pete Hoffmann – Hawaii County Council
Director – Hawaii State Office of Information Practices
